ANAS ABUJABER

SOFTWARE ENGINEERING

I'm a passionate frontend developer focused on building beautiful, fast, and user-friendly web applications. I work with modern technologies like React, TypeScript, and Material UI, and I enjoy blending clean code with good design. I also have experience in Java and UI/UX, complemented by a solid background in Financial Accounting and data integrity.

SKILLS

Frontend Development

- React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI , State Management , REST APIs

UI/UX Design

- User-centered design, Wireframing, Responsive Design principles

Backend

- Java (Core), Object-Oriented Programming (OOP), Basic SQL & Database Management.

Soft Skills

- Problem-solving, Leadership, Teamwork, Time management, Adaptability

Version Control

- Git & GitHub (pull requests, code reviews)

Accounting & Finance

- Financial Reporting, Bookkeeping, Tax Preparation, Budgeting, and Auditing.

PROJECTS

Smart-ATM-App

Developed a functional ATM logic simulation, focusing on transaction workflows and user authentication LINK .

PrayerTime-API

A Clean Architecture SPA built with ES6 Modules and REST APIs. Features a live countdown timer, API caching for performance, and LocalStorage for persistent user settings LINK .

EDUCATION

Bachelor's in Software Engineering

University of Palestine
